WHITE PAPER

THE METAWISDOM GROUP

FOUNDING DECLARATION OF THE DOCTRINE

*This White Paper presents, for the first time, the doctrine of the **Metawisdom Group**, founded by Tran The Cong in 2025.*

All concepts, philosophies, models, and systemic structures presented in this White Paper are to be regarded as a unified intellectual whole, constituting intellectual property owned by the author and protected under copyright, moral rights, and exploitation rights in accordance with applicable intellectual property law and regulations.

This doctrine is part of the System of Seven Civilizational Doctrines, publicly announced by the author through seven White Papers: Unified Science, Metawisdom Economics, Metawisdom Civilization, The Metawisdom Group, Athera – The Metawisdom Companion AI, Genesisia – The Metawisdom Nexus, and Horizon Grid – The Worldwide Solar Energy Network. The seven doctrines constitute a unified whole that serves as the guiding axis for a civilizational transformation. Any reception, research, application, or practical implementation must adhere to the spirit of this system, following the principle of understanding the whole before implementing any part.

Any restructuring, reinterpretation, translation, dissemination, integration into policies, operational models, or educational programs may only be undertaken if the system's integrity, coherence, and ultimate purpose – as defined by the entire doctrinal system – are preserved.

PREFACE

Throughout all eras of human existence and development, there has been one enduring value that transcends all borders, religions, ideologies, and power structures. That value is Metawisdom – the capacity for self-awareness, self-operation, and cultivation of intrinsic values within oneself and in others. Metawisdom is the source of all social progress, and the foundational genesis of all moral values.

History has shown that no civilization sustains durable prosperity by force, technology, or institutional structure alone. Today, humanity is approaching limits it cannot overcome by itself due to fragmentation in power and values. Only Metawisdom can lead each person to transcend themselves, thereby enabling humanity to surpass its own limits and open up a new civilizational form that is more humanistic, profound, and holistic.

The Metawisdom Group is founded to meet that inevitable need, not as a competitive force, not to accumulate power or assets, nor to replace or negate any existing individual, organization, or value system.

The Metawisdom Group does not come to seek victory. It comes to make "win-lose" no longer the operating principle of civilization, and to render the "win-lose" mindset redundant and antiquated.

The Metawisdom Group does not arise as a choice; it arises as an inevitable result of human evolutionary processes. It demonstrates that stable and strong development can be achieved through the spirit of respect, cooperation, sharing, and harmony. It exists to help individuals and organizations recognize their inherent potential and the right, beautiful, and worthy mode of existence for themselves.

Finally, and most importantly, the Metawisdom Group accelerates humanity's transition toward Metawisdom Civilization and serves as a model of Metawisdom Civilization present within this civilization.

This is not merely a declaration. It is an invitation to accompany the project for those ready to embody in advance the good and noble that humanity has always aspired to.

I. MISSION AND VISION

1. Mission

The Metawisdom Group is established to execute, and exclusively to execute, the following missions:

- To attract and connect elite individuals and humanity's clean resources, uniting them in the aim of promoting and advancing human civilization to a higher stage.
- To build and maintain an environment that cultivates and develops Metawisdom rapidly, deeply, and effectively for all participants in this ecosystem, ensuring that each individual and organization has the conditions to live, work, and mature in alignment with their nature as Metawisdom Subjects.
- To become a global center for the development and coordination of Metawisdom resources, serving as a foundational institution for cultivating, disseminating, and applying Metawisdom in society.
- To motivate, encourage, accompany, and guide individuals, organizations, and governments to pursue the core values of Metawisdom and the sustainable values of Metawisdom Civilization.
- To directly implement and operate the pillars of Metawisdom Civilization through models of cooperation, co-creation, and accompaniment with organizations, nations, and social institutions.
- To directly become a Metawisdom Ecosystem and to promote the formation and development of other Metawisdom Ecosystems within society and humanity.
- To ensure the achievement of a standard model of Metawisdom Civilization before 2056, as an operationally complete, stable, sustainable, and scalable form of social organization.

2. Vision

Oriented toward the year 2045, the Metawisdom Group achieves the following strategic objectives:

- Unified Science becomes the integrated standard system of Science – Philosophy – Religion in human cognition.
- To successfully establish standard models for Metawisdom Economics, Metawisdom Education, Metawisdom Knowledge Platforms, and deploy them widely in social life.

- Liberation-Oriented Technology becomes the central philosophy guiding humanity's technological development.
- Care for and awaken Metawisdom in at least 2 billion people, via an ecosystem of education – culture – technology – mental health – community creation.
- Achieve global revenue equivalent to 5,000 billion EUR, as an indicator of operational effectiveness, rather than a goal of competition or accumulation.
- Shape a global Metawisdom Economic Ecosystem achieving revenue equivalent to 50,000 billion EUR, acting as a new axis of global economic development.
- Accompany and promote the world economy to achieve GDP equivalent to 400,000 billion EUR, with development quality based on Metawisdom – Cooperation – Regeneration – Sustainability.

II. CORE VALUE SYSTEM

The Metawisdom Group orients and sets the standards for people, organizations, values, spirit, and operating principles to ensure clarity, transparency, and unity throughout its entire existence and operation.

These standards not only maintain consistency in all internal operations, but also shape how the Metawisdom Group interacts with and influences external individuals, organizations, and communities.

1. Standard for Human Positioning

- The Metawisdom Group positions each member as a Metawisdom Subject – a Subject capable of self-awareness, self-regulation, self-development, and self-responsibility regarding their own existence. All training and accompaniment aim to cultivate and upgrade the capacities corresponding to a Metawisdom Subject, helping each person manifest their own qualities or Metabeing potential.
- Each member of the Metawisdom Group is trained to have the capacity to self-shape and develop their own Metawisdom Field, including when operating in external environments, organizations, or communities. This is the foundation ensuring Metabeing independence, ideological autonomy, and inner stability, so that individuals are not dissolved, are not controlled, and never lose or are stripped of their Metawisdom dignity under any circumstances.

- The Metawisdom Group regards all people as Metawisdom Seeds. Each person has the potential for maturity, cooperation, and value-creation when they are respected, properly guided, and nurtured in an appropriate environment. Therefore, the Metawisdom Group does not impose upon or possess people, but rather guides and promotes them to become Metawisdom Subjects according to their own natural process.

2. Standard for Vision and Mission

- The Metawisdom Group establishes Vision and Mission as the common guiding axis for the entire ecosystem. Participation in the Metawisdom Group is voluntary and rests on individual understanding and awareness that these Vision and Mission are worthy of respect, accompaniment, and achievement. No one is persuaded, coerced, or influenced by external belief, power, or interest.

- Each member is oriented to become a Subject of action, nurturing and developing autonomy, self-reliance, and responsibility in realizing parts or the entirety of the shared Vision and Mission. No dependence, no expectation of others to lead, and no shifting of responsibility to the organization.

- The Metawisdom Group does not recruit, and will terminate cooperation with any individual who contradicts or denies even a single element of the shared Vision and Mission. This action is not exclusion but the protection of the purity and spiritual unity of the internal environment, and the honesty of the declared values.

3. Standard for Value System Structure

The Value System Structure of the Metawisdom Group is not a set of abstract viewpoints or theory; it is a practical operating framework to advance and actualize the models, principles, and values presented in the Seven White Papers of Civilization.

This means:

- All ideas stated in the Seven White Papers of Civilization must be promoted for testing, implementation, and realization in the environment of the Metawisdom Group, or encouraged for practice in the lives of participating members.

- The Metawisdom System Structure is the unified reference framework for perceiving, evaluating, adjusting, and developing all action programs.

- Models in the doctrines are not for exhibition but for practice, becoming ways of living, working, and developing for people, organizations, and society.

4. Standard for Cooperation Spirit

All cooperation within the Metawisdom Group or between the Metawisdom Group and partners is shaped by three spirit standards:

- The Metawisdom Group positions each person as a Metawisdom Seed, capable of becoming a Metawisdom Subject via self-awareness and self-maturation. Therefore, in cooperation, individuals need to maintain a natural attitude of respect for the right to cognition, autonomy, and creative capacity of each individual and other organizations. No one is regarded as inferior, dependent, or compelled to follow another.

- All cooperation in the Metawisdom Group is built on three simultaneously growing values: the development of each participant, the achievement of the organization's shared Vision and Mission, and the corresponding support for co-partners or cooperating communities. If a cooperation does not simultaneously increase these three values, then it is not yet compatible with the Metawisdom system structure. It should be restructured or discontinued.

- The process of seeking and promoting cooperation is regarded as a meaningful labor phase, in which each individual and each party needs to upgrade their own consciousness value, Metawisdom level, and Metabeing capacity, to co-create common solutions beneficial to all.

5. Standard for Operating Principles

- The Metawisdom Group operates on the foundation of unity or the promotion of unity among Illuminative Nature – Fulfilling Nature – Instinctual Nature within each individual. Illuminative Nature ensures operation based on lucid observation and perception. Fulfilling Nature ensures operation based on bringing benefits to both oneself and related others. Instinctual Nature ensures operating motivation naturally, without obstruction from any other internal factors.

- The Metawisdom Group maintains the principle of respecting and fully complying with the legal, ethical, and cultural standards of society and communities where it is present. This respect lies not only in the formal declaration of these standards but also in the spiritual values hidden behind those formal declarations.

- In cases where an individual or unit cannot fully operate according to the previous two standards, the principle is to return to inner operation by consciousness work, Metawisdom work, and Metabeing work to increase adaptability, harmony, and proper compliance with established standards.

III. STRUCTURE OF SHARE CAPITAL – CAPITAL CONTRIBUTION – EQUITY OWNER

The Metawisdom Group's share capital is divided into 100 blocks, each carrying equal voting rights. These share blocks are non-transferable by sale or purchase, assignment, pledge, inheritance, or any other form of transfer; however, dividend rights derived from such shares may be inherited or distributed pursuant to law. The share blocks are classified into two groups: Core Value Shares and Operational Capital Shares.

1. Core Value Share Structure

Founding Shares: 13 blocks, corresponding to contributions of founding effort, initial capital and personal reputation, and important to the operation and implementation of the Metawisdom Group and Metawisdom Civilization.

Founding Capital Shares: 5 blocks, owned by individuals contributing initial capital. These funds are to establish the Metawisdom Group and lay the foundation for international deployment.

Honorary Shares: 7 blocks, awarded to independent individuals, organizations, or Companion Funds that have used their reputation, influence, knowledge, or resources to contribute special values and promote important steps of the Metawisdom Group. Honorary Shares express the Metawisdom Group's gratitude for non-profit, goodwill contributions that are consistent with value standards, and acknowledge their role as accompanying forces in the journey of building the Metawisdom Civilization.

Intellectual Shares: 45 blocks, awarded to individuals who have contributed important experience or Intellectual Property to promote the Mission and Vision of the Metawisdom Group and the Metawisdom Civilization. Dividends for each Intellectual Share block will be multiplied by a ratio of 3 times.

Benefits:

Holders of Founding, Founding Capital, Honorary, or Intellectual Shares receive:

- Are identified as "One Who Dedicates Themselves to Metawisdom Civilization".
- Lifetime entitlement to all personnel benefits of the Metawisdom Group.
- Voting rights and dividends corresponding to their held shares.
- Are honored in publications or representative symbols of Metawisdom Civilization.

2. Operational Capital Share Structure

Thirty Operational Share blocks are reserved for individuals, corporations, or nations contributing operating and implementation capital, numbered sequentially from 1 to 30. Each block has a capital contribution value equal to the Fibonacci number immediately following that block number multiplied by 1 million EUR. Dividends for each block will be multiplied by a ratio of 4 times.

Examples:

- Block 1: 1 million EUR
- Block 2: 2 million EUR
- Block 3: 3 million EUR
- Block 4: 5 million EUR
- Block 5: 8 million EUR
- etc.

These thirty share blocks are divided into three groups: the first 22 blocks contributed by individuals, the next 5 blocks contributed by corporations, and the final 3 blocks contributed by governments or national investment funds.

3. Individual Operating Capital Contributors

Scope of contribution:

- Only individuals may contribute capital to the first 22 blocks.
- Each individual may contribute a maximum of 1 block, minimum 0.01 block, and the contribution must be a multiple of 0.01 block. Each individual's minimum capital contribution must also ensure a minimum of 1 million EUR.

Selection criteria:

Capital contributors must meet all three criteria:

- Are elite individuals who have reached a certain level of influence, leadership, or creation.
- Deeply concur with the Metawisdom Group's Vision and Mission.
- Have the motivation, direction, and ability to lead organizations, enterprises, or communities into the Metawisdom process.

Title and civilizational role:

- Each contributing individual is given the title: "One Who Lays the Foundation for Metawisdom Civilization".
- Their names are inscribed on the Global Map of Metawisdom Civilization and become part of the chronicle of those who usher in a new era.

Access and implementation rights:

- Lifetime free access to all Metawisdom Group training programs.
- Priority in applying and implementing the Metawisdom Ecosystem in their enterprises, organizations, and communities.
- Direct accompaniment in Metawisdom and Metabeing Development programs implemented and guided by the White Paper's author.

4. Corporate Operating Capital Contributors

Scope of contribution:

- Corporations may only contribute capital in 5 blocks, from Block 23 to Block 27.
- Each corporation may own a maximum of 1 block, a minimum of 0.05 block, and contributions must be multiples of 0.05 block.

Selection criteria:

- Have a strategic role in one or more civilizational infrastructure fields: technology, data, energy, finance, education, health, communication, or urban planning, etc.
- Have a commitment to promote organizational cultural transformation aligned with the Vision and Mission of Metawisdom Civilization.
- Have the capacity to expand, operate, or spread models or pillars of Metawisdom Civilization to community, city, national, or ecosystem scale.

Title and civilizational role:

- Contributing corporations are given the title: “Pillar Builders of Metawisdom Civilization.”
- The corporation’s name will be recorded on the Global Infrastructure Map of Metawisdom Civilization.

Access and implementation rights:

- Priority access to Metawisdom Ecosystem models in production, governance, operations, and human development.
- Receive support in establishing their own Metawisdom Nucleus and being connected to the global Metawisdom Nexus.
- Receive the transfer of Metawisdom operational standards to restructure internal governance systems.
- Become official implementation partners in projects:
 - Metawisdom Cities
 - Metawisdom Economic Zones
 - Metawisdom Ecosystems
 - Metawisdom infrastructure chains of Technology – Knowledge – Culture – Economy.

5. National Operating Capital Contributors

Scope of contribution:

Nations (or sovereign wealth funds, or financial institutions authorized by the government) may contribute capital in 3 blocks, from Block 28 to Block 30.

- Each nation may own a maximum of 1 block, minimum 0.1 block, contributions must be multiples of 0.1 block.
- Capital contribution may be carried out in stages, depending on national budget strategy.

Selection criteria:

- Have a long-term development vision beyond political cycles.
- Have an aspiration to elevate human values, not merely economic growth.
- Have the ability to safeguard social, cultural, and spiritual life stability.
- Have senior leadership willing to enter the Metawisdom development process.
- Have the capacity to implement new models without internal conflict.

Title and civilizational role:

- Contributing nations are given the title: “Dome Builders of Metawisdom Civilization.”
- Have priority rights to participate in and announce titles in international forums and civilizational foreign affairs programs.

Access and implementation rights:

Participating nations receive:

- Support in establishing National Metawisdom Research & Development Institute, having rights to implement advanced Metawisdom and Metabeing development programs.
- Support in establishing Metawisdom Nucleus and be connected to the global Metawisdom Nexus.
- Support to deploy Metawisdom Ecosystems at levels including:
 - Cities/Regions/Centers of Metawisdom.
 - National-level Metawisdom Ecosystems.
- Access to social, human, organizational operating standards designed by the Metawisdom Group.
- Foundational, long-term advisory from the White Paper’s author on aspects:
 - Positioning national values or cultural identity on the global Metawisdom map.
 - Designing national Metawisdom development trajectories.
 - Establishing the nation’s role within the new civilizational context.

IV. DISTINCTIVE GOVERNANCE STRUCTURE

1. Decision-Making Governance

The Metawisdom Group’s governance structure comprises three bodies: the Board of Shareholders, the Group’s Executive Board, and the Metawisdom Nucleus. These are functionally independent units but unified in Vision and Mission, forming a dynamic balance operating system among Vision – Resources – Solutions.

Board of Shareholders:

- Safeguards and protects the Metawisdom Group’s Vision and Mission, ensuring all strategic orientations and all activities do not deviate from core values.

- Establishes and maintains the Value Axis for the entire system.
- Does not directly manage or interpose in daily operations or project implementation.

Group's Executive Board:

- Ensures financial, legal, human, and infrastructure resources for the Metawisdom Group as well as the Metawisdom ecosystem.
- Operates general functions: Legal affairs, communications, international cooperation, financial governance, corporate culture, internal training, etc.
- Ensures system stability and smoothness so projects can be implemented effectively.
- Does not operate or decide on professional solutions for projects.

Metawisdom Nuclei:

- Propose and build directions, solutions, technologies and implementation models for specific projects.
- Operate a 3-round Metawisdom Consensus mechanism to select Perfected Plans and designate the Engineers and Chief Project Engineers for those plans.
- Establish Project Management Councils for each project and delegate implementation authority to these councils to directly implement entire projects.

2. Economic Interest Governance

The Metawisdom Group applies the principle of Nurturing the Foundation, in which at least 60% of capital contributions or profits arising from each country or territory are retained locally and may only be used for the following purposes:

- Increase training and experience benefits for personnel working locally.
- Provide Metawisdom scholarships in various forms to expand indigenous community access to Metawisdom.
- Build and develop indigenous Metawisdom Ecosystems, including training centers, community activities and Metawisdom Civilization implementation models.
- Preserve and promote indigenous cultural values, ensuring respect and harmony with local traditions.
- Crystallize and position local cultural identity on the global Metawisdom Civilization map.

3. Functional System Governance

The Metawisdom Group operates through two subsidiary systems, representing two core functions of Metawisdom Civilization: Training and Dissemination of Metawisdom, and Implementing Global Projects.

These two systems operate independently in expertise but are unified in Vision – Mission under the value protection of the Board of Shareholders and resource support of the Group’s Executive Board.

National Metawisdom Training & Dissemination System:

- Build and operate Metawisdom Centers in each participating nation or territory.
- Train, disseminate and nurture Metawisdom for indigenous individuals, communities, organizations and governments.
- Develop content, programs and training platforms adapted to each locality’s cultural specificities.
- Form and maintain indigenous Metawisdom Ecosystems, as the foundation for the development of Metawisdom Civilization in each country.

This unit spreads, nurtures and develops people and communities, creating a foundational force for global projects.

Global Project Implementation System:

- Develop and implement transnational or global projects, e.g., Metawisdom Education Platforms, Metawisdom Knowledge Platforms, Liberation-Oriented Technologies, etc.
- Apply Metawisdom technologies, models and methods to create large-scale value.
- Connect resources from multiple nations to deploy Metawisdom Civilization models with global impact.
- Support nations in transitioning to Metawisdom-oriented socio-economic models.

This is the creating – innovating – implementing – breakthrough department, leading humanity's transition to Metawisdom Civilization.

V. MAIN AREAS OF DEPLOYMENT

1. Research & Development of Unified Science

- Research and develop Integral Cognition Science, Metawisdom Science, Metabeing Science and their application, connection, or expansion directions.
- Collaborate with research institutes and scholars worldwide to shape a Unified Science foundation for all humanity.

2. Metawisdom Knowledge Platform

- Build and deploy Athera – The Metawisdom Guidance AI.
- Restructure human knowledge into an AI-integrated and Metawisdom-oriented format, helping each person access knowledge flexibly, proactively, and profoundly through thinking – experience – verification.

3. Metawisdom Education

- Design, organize and deploy new educational models for younger generations based on Metawisdom awakening and capacity for self-learning – self-education – self-development.
- Reconfigure certain social models and functions to support human self-learning – self-education – self-development in modern life.

4. Metawisdom Training

- Provide foundational knowledge, thinking frameworks, research fundamentals and practical applications of Unified Science in important life fields.
- Offer advanced training on theory and application of Metawisdom Economics: Metawisdom Labor Training Program, Metawisdom Entrepreneur Training Program, Metawisdom Enterprise Training Program, Metawisdom ecosystem Training Program.

5. Liberation-Oriented Technology

- Develop new technologies that enable people to expand inner experience and enhance capacity for Self-awareness – Self-mastery – Self-creation.
- Orient humanity's technological development in the spirit of Liberation.

6. Soul-Mind-Body Healthcare

- Research, establish foundations, and build healthcare systems for cognitive, ideological, spiritual, Metawisdom and Metabeing life forms.
- Develop forms of medical care that support or transition among these life layers, to promote or balance people's overall health.

7. Systemic Consulting and Accompaniment

- Consult on strategic direction for personal Metawisdom development and Metawisdom capacity for organizations or nations.
- Consult and accompany the process of model and value system transformation for individuals, organizations, nations, and social systems according to Metawisdom Civilization standards.

8. Metawisdom Intellectual Property and Copyright

- Promote research, expansion and innovation toward unifying models, technologies, methods, and doctrines belonging to or linkage with Metawisdom and Metawisdom Civilization.
- Protect, develop, and commercialize these intellectual properties to maximize their applied value.

9. Civilizational Governance

- Research, design and implement concrete models and value-systems for Metawisdom Ecosystems and Metawisdom Civilization.
- Promote consensus, cooperation, and unity among major resources of current civilization so that the transition process to Metawisdom Civilization occurs in harmony, without confrontation.

VI. COOPERATION STRATEGY

1. Non-Competition

The Metawisdom Group (the Group) is not established to compete, oppose or win superiority over any individual, organization or government.

The Group embodies the spirit of cooperation and unity in addressing civilization-scale problems.

2. Co-Creation

The Group does not merely cooperate with individuals, organizations or governments; rather their cooperation constitutes the Group itself, shaping its mission, values and stature.

Every appropriate participation by individuals, organizations or governments establishes the Group's growth and opens up the possible future for Metawisdom Civilization.

3. Metabeing

The Group represents humanity's Metabeing when interacting with other modes of existence in society and civilization.

The Group's cooperation goal is to promote realization, growth and achievement of Metabeing within each individual, organization, and social system.

VII. CONCLUSION

The emergence of the Metawisdom Group is not an organizational choice but the inevitable result of humanity's maturation. As current power, economic and knowledge structures reach their limits, only Metawisdom can open new developmental paths for individuals, organizations, communities and the entire civilization.

The Metawisdom Group is founded as the first paradigm of Metawisdom Civilization, operating completely within the transparency and legality of current civilization, while constructing the models, standards and value systems of the next civilization.

This White Paper establishes:

- The foundational standard framework for thinking, collaboration, and operation of human beings within an organization.
- A new governance structure in which deployment authority truly accompanies Metawisdom stature.
- Business strategy purposefully cooperating and nurturing each partner, each community, each nation according to the liberation spirit.
- Nine fields of deep and comprehensive deployment, covering important areas of life, creating a complete ecosystem for humanity's transition to a new developmental stage.
- Principle of creating the future, where each individual's maturation promotes the whole's maturation momentum.

The Metawisdom Group affirms: Metawisdom Civilization is not theory but a model feasible to be established in the present, and the Metawisdom Group is the starting point of that establishment journey.

This White Paper sets a new value order, and those who are ready for that order can enter to together build a new civilizational form. It is a civilizational form where Metawisdom becomes the operational standard, Metabeing becomes the development foundation, human beings are positioned in the noblest mode of existence.

The Metawisdom Group has opened a door, welcoming those who are prepared to accompany on the most extraordinary journey – The journey of creating the Ultimate Glory for humankind.
